Pages: 175pp incl. 8 colour plates
Dimensions: 216 x 138 mm
Weight: 365g

"George has an extraordinary and instinctive understanding of badger behaviour"
Mike Hughes, Badger Trust

*"George Pearce reveals an uncanny knack to be in the right place
at the right time to answer myriad badger questions"*
Professor David W. Macdonald, Wildlife Conservation Research Unit, Oxford

A fascinating insight into the badger's world. Badger biology, life in the sett, rescue & rehabilitation, consultancy, badgers & farming, and badger-watching with George Pearce – an expert on badgers.

George has surveyed over 700 sites, visited 1,500 setts, been consulted as an expert in 120 animal cruelty cases and rehabilitated more than 100 badgers. Brought up on a farm, he earned his living as a farmer for 45 years. Today, he is a badger consultant and one of the foremost experts on the British mammal he admires the most.

For many years, the RSPCA, police, veterinary surgeons and conservation groups all over the country have relied on George Pearce's knowledge and his instinctive feel for animal behaviour. Now you can share in his experience and enthusiasm for badgers from his 70 years of badger watching and his vast professional wildlife experience.
